Introduction of IIFT school

IIFT is the international standard's fashion & interior designing school well established and successfully running in Nepal's 1st ISO 9001:2015, CTEVT affiliated & WSC London certified fashion school. It has been recipient of best fashion & interior designing academy at FASHIONFARE Awards 2020 & achieved the corporate khabar excellent business award 2022. It is being run by the group of young and highly professional entrepreneurs having long year experience in education and fashion industry. IIFT is being successfully running having its three centers one being located at Bagbazar Plaza, Kathmandu, Heritage Plaza, Kamaladi and the other at Manbhawan Lalitpur leasing the area of 10000 square ft. We provide the highest standard of education for fashion industry and provide the platform to enhance skills to become an industry expert by providing classes we create an environment where trainers engage with their students on a one-to-one level.

For the students of fashion designing, we at IIFT provide both technical and business enhancement material through the practical and theoretical knowledge of topics like modeling, fashion marketing, media management, consumer dealing, personality development, and make-up. These supplementary materials give the IIFTians more power to help them comprehend and experience the whole needs to be a professional fashion designer, from producing clothes to reaching the real market in a professional method. Similarly, we provide special exhibitions where our interior designers present their work to invited clients and business leaders. Here at IIFT, we focus on science to develop, art to produce, and management to plan, organize, and effectively implement.

Fashion Designing and its scope

Fashion designing is an art form dedicated to the application of design and aesthetics to clothing and other lifestyle accessories, drawing inspiration from culture, nature, and varied trends. It varies over time and place, yet it is a creatively fulfilling and financially rewarding job. Given these prospects, many art enthusiasts are attracted to its formal learning, making it one of the most sought-after courses in the world. Nepal is no more different. A career in Fashion Designing is undoubtedly a good choice as the fashion industry has gained popularity and reached its peak. People studying fashion designing today are celebrated fashion designers, fashion entrepreneurs, brand owners, leaders, and fashion education educators. Together, they are expanding the horizon of education and career prospects in the field in Nepal and abroad.

As the world is moving forward, there are new scopes being created.

Nationally and internationally, you can work as a fashion designer, fashion stylist, fashion merchandiser, fashion consultant, fashion entrepreneur and fashion coordinator.

Diploma in Advanced Fashion Design

The diploma in Fashion is 16 month practice based program where students will learn about technical skills, industrial knowledge, design processes, and creative visual communication. This program helps to encourage the students to think critically and creatively in order to blend contemporary artistic practices for designing the attires.

Fashion design is the art of application of design and aesthetics or natural beauty to clothing and accessories being part of human lifestyle influenced by tradition, cultural and social attitudes, and have varied over times and places. Fashion designers, who play a vital role, work in a number of ways in designing garments, clothing, garments and accessories with latest trends in fashion world. Designers must at times anticipate changes to consumer tastes further attempt to design clothes which are functional as well as aesthetically pleasing considering who is likely to wear and the situation in which it will be worn.
